

Now Offering Telemedicine *Healthcare Virtually Anywhere*

Telemedicine allows you to have a virtual appointment with your primary care or psychiatric provider using a digital device and the internet, where you can discuss your healthcare concerns from the comfort and safety of your home.

How Does it Work?

We will schedule a video appointment just like an in-office visit. You will need to access our free Telemedicine conferencing tool on your computer or smart device. You will be able to discuss your healthcare concerns, including your symptoms, lab work, prescriptions and more, all from the convenience of your home.

Benefits of Telemedicine.

Choosing a Telemedicine appointment allows you to:

- Reduce transportation time and costs
- Minimize time needed off of work
- Eliminate child or elder care issues
- Reduce exposure to illness

How Do I Schedule an Appointment?

Patients can call (833) 431-4449 to determine if their needs can be best served with a Telemedicine appointment. Our customer service representative will assist you in scheduling an appointment.

**If you are interested in using Telemedicine services,
please call 833-431-4449 or visit www.hhwaz.org.**
